

## Kuis Pertemuan 10

### Pelatihan Backend Fundamental C#

The image shows a screenshot of a Windows application window titled "Kuis Pertemuan 10". The application is a simple calculator with a light blue background. It features three input fields: "Angka 1" containing the value "7", "Angka 2" containing the value "5", and "Hasil" containing the value "12". Below the input fields, there are four buttons representing arithmetic operators: a red button with a white "+" sign, a yellow button with a black "-" sign, a purple button with a white ":" sign, and a green button with a white "x" sign. The title bar of the window includes standard Windows window controls (minimize, maximize, close).

Soal :

Membuat aplikasi kalkulator sederhana dengan menginputkan 2 angka dan menghasilkan output sesuai operator yang di klik!
